

This file is for XP11 users only and will enable visibility of other traffic when flying on Fly UK's FSD server as well as online networks (with some limitations)

For full install information on the server and its use, please visit this page.

<https://flyuk.aero/docs/fly-uk-fsd-online-flying-setup>

Please note there are some limitations with XP11 model matching currently so not all aircraft or franchises may show fully, refer to above guide link for full details
